

EV-set size: short-flow cost, long-flow benefit, and state coverage

FCT ratios pair identical (seed, flow_id, src, dst, flow_size); <1 is better for larger K

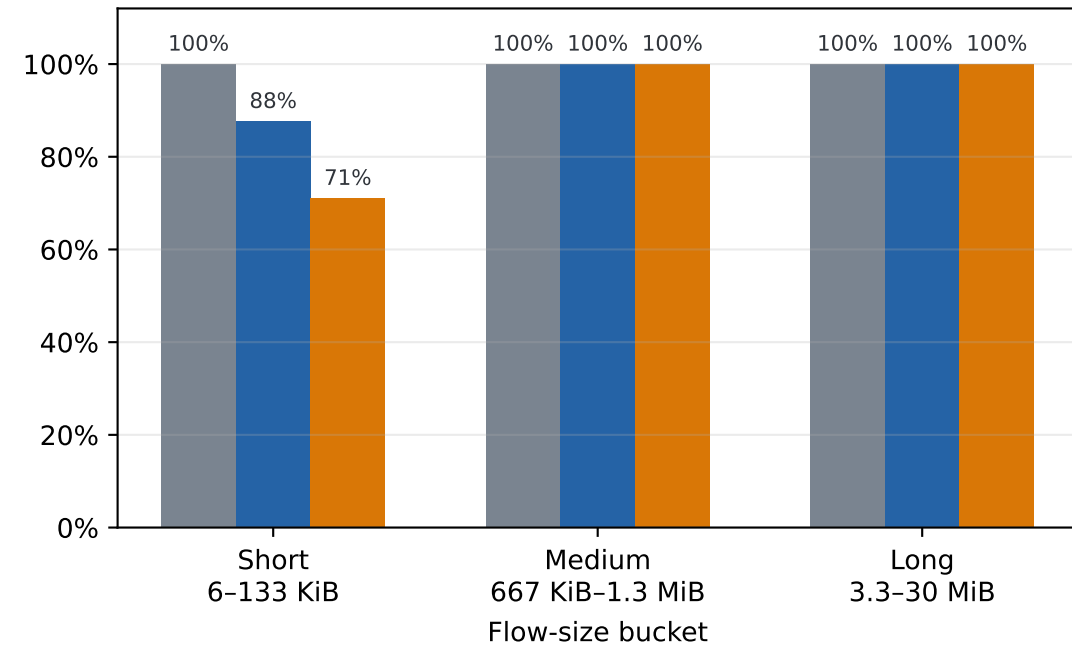

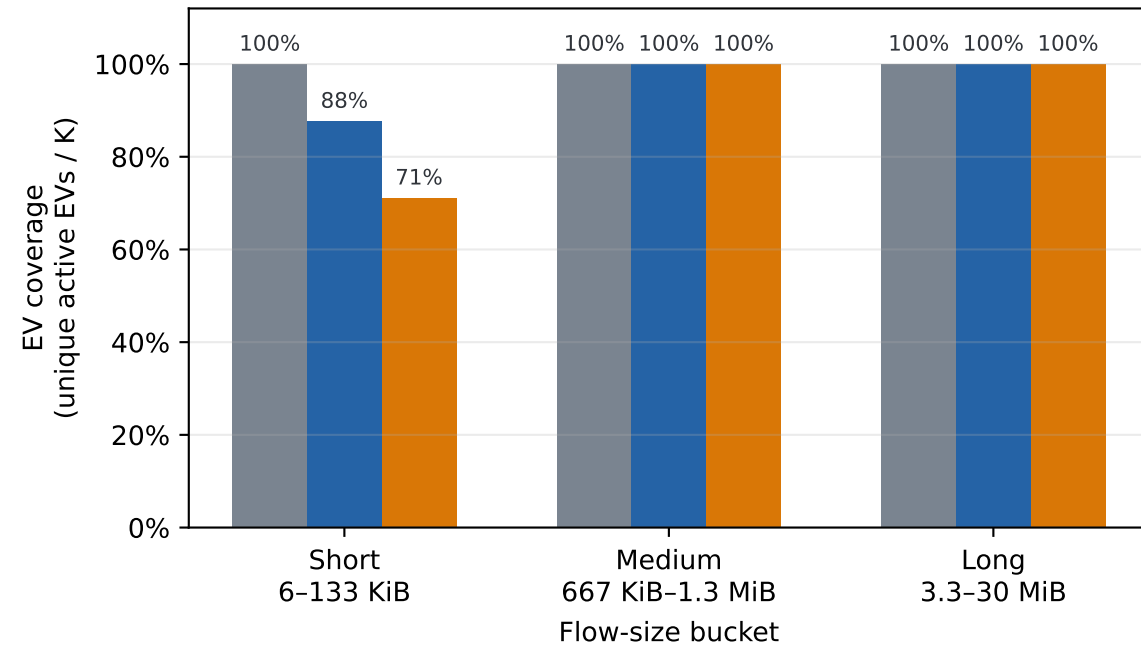

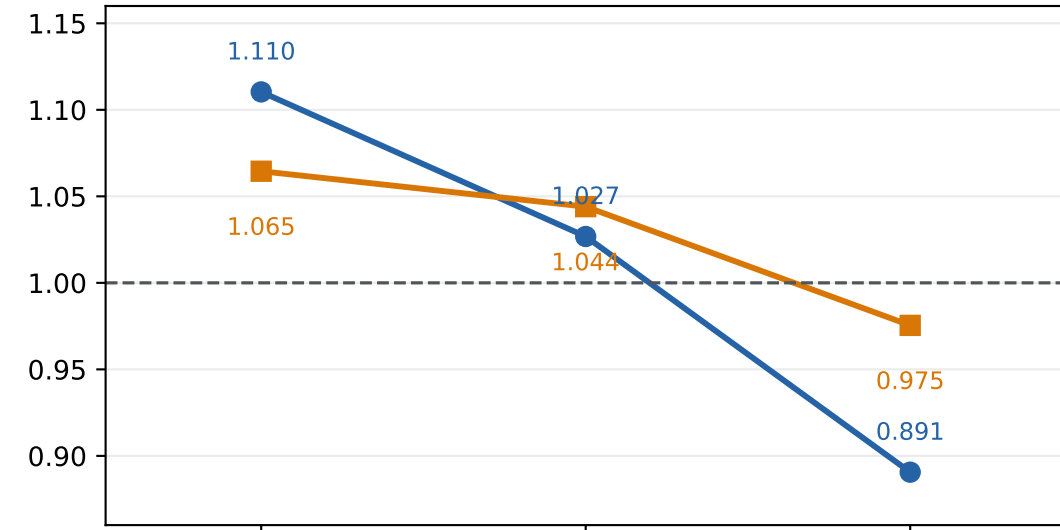

● K4/K2 ■ K8/K4

■ K=2 ■ K=4 ■ K=8

40% offered load

80% offered load

Dashed line = no FCT change. Coverage alone does not imply that feedback arrived early enough to improve the flow.
